

GUIDE

Claude ka UI aur Settings

Har screen, har option, aur usko kab use karna hai: ek simple Hinglish guide

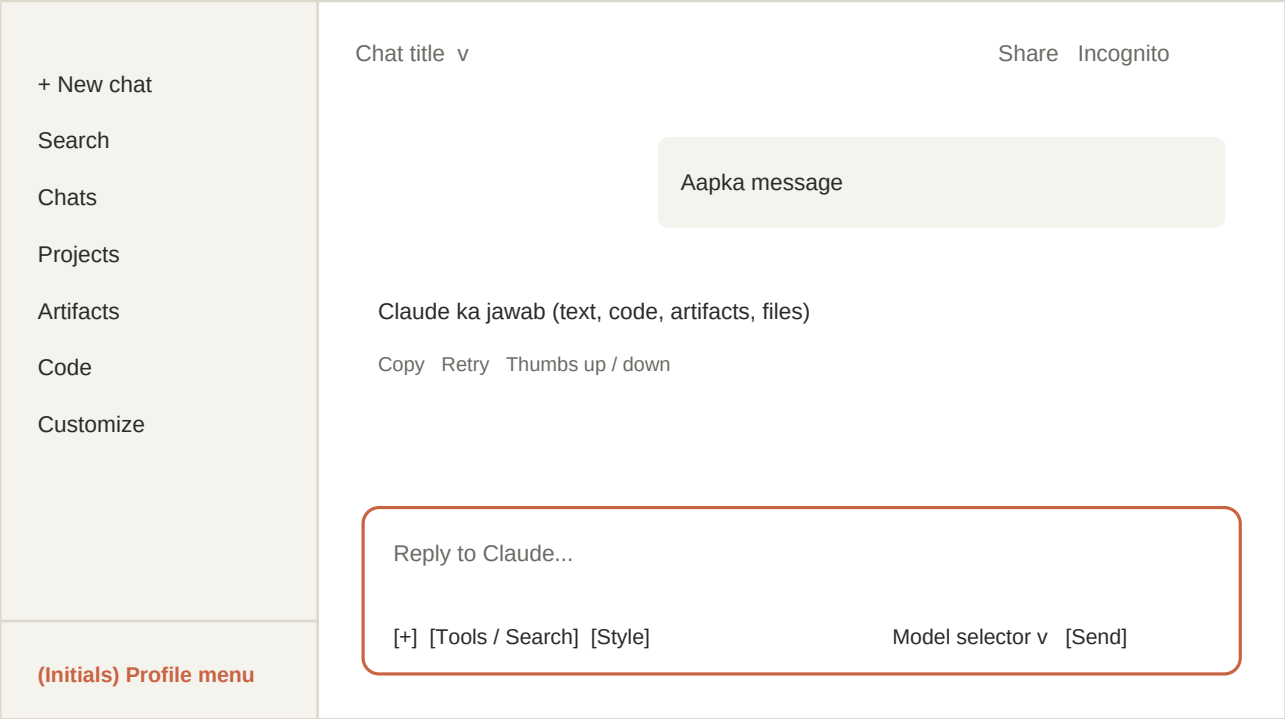

Is guide mein:

1. Main chat UI (sidebar, chat area, input bar)
2. Settings: General / Profile, Account, Privacy, Billing, Usage, Capabilities, Memory, Connectors, Claude Code
3. Customize area: Skills, Connectors, Styles
4. Team / Enterprise ke Organization settings (short)
5. Quick-reference: kaunsa kaam, kaunsi setting

Note: Claude ka interface baar-baar update hota hai. Menu ke naam aur jagah aapke plan (Free / Pro / Max / Team / Enterprise), platform (web, desktop, mobile) aur rollout ke hisaab se thode alag ho sakte hain. Yeh guide September 2026 ki public help-center jaankari par based hai. Latest ke liye support.claude.com dekhein.

1. Main chat UI

claude.ai kholte hi screen teen hisson mein bati hoti hai: left mein **sidebar**, beech mein **chat area**, aur neeche **input bar**. Neeche ek simple wireframe hai (asli design thoda alag dikhega, yeh sirf layout samjhane ke liye hai).

1.1 Sidebar

Option	Kya karta hai	Kab / kaise use karein
New chat	Naya, khaali conversation shuru karta hai.	Har naye topic ke liye naya chat kholein; lambe mixed chats mein jawab kam focused ho jaate hain.
Search / Chats	Purane saare conversations ki list aur search.	Kisi purani baat ko dhoondhne ke liye. Chat pe hover karke rename, star ya delete kar sakte hain.
Projects	Ek jagah files, custom instructions aur related chats rakhta hai.	Lamba kaam (thesis, client, codebase) ho to project banayein; uski files har chat mein available rahengi.
Artifacts	Claude ke banaye pages, apps, docs, decks ki gallery.	Pehle bana hua tool ya document dobara kholne ya share karne ke liye.
Code	Claude Code ka web / desktop entry point (plan par depend).	Repo ke saath coding tasks delegate karne ke liye.
Customize	Skills, connectors aur dusre personalisation options.	Naye tools jodne ya skills on/off karne ke liye (Section 3 dekhein).
Profile menu (initials)	Neeche-left corner. Settings, plan, help, language, log out.	Saari settings yahin se khulti hain.

1.2 Chat area

Option	Kya karta hai	Kab / kaise use karein
Chat title	Upar chat ka naam; click karke rename / star / delete.	Important chats ko star karein taaki sidebar mein upar rahein.
Share	Chat ka read-only link banata hai.	Kisi ko poori conversation dikhani ho. Private info pehle check kar lein.
Incognito	Aisa chat jo history aur memory mein save nahi hota.	Sensitive ya one-off sawal ke liye. Sab plans pe available.
Message actions	Copy, Retry (naya jawab), Edit (apna message badlein), thumbs up / down.	Jawab pasand na aaye to Retry ya apna prompt edit karein. Thumbs-down se Anthropic ko feedback jaata hai.
Artifacts / files panel	Claude ke banaye documents, code, apps side panel ya card mein khulte hain.	Wahan se download, copy, publish ya share karein.

1.3 Input bar

Option	Kya karta hai	Kab / kaise use karein
Text box	Yahan prompt likhte hain. Shift+Enter se nayi line.	Saaf batayein: kya chahiye, kis format mein, kitna lamba.
+ (plus) menu	Files / photos upload, screenshot, project se add, connectors add, style choose.	PDF, image, spreadsheet dekar sawal poochne ke liye. '/' type karke bhi menu khulta hai.
Search & tools	Web search, Research, connected apps ko on/off karta hai.	Taaza news / current info chahiye to web search on rakhein; gehri report ke liye Research.
Use style	Normal, Concise, Explanatory, Formal, Learning ya apna custom style.	Chhote jawab chahiye to Concise; padhai ke liye Learning / Explanatory.
Model selector	Kaunsa Claude model use hoga (e.g. Opus, Sonnet, Haiku, plan ke hisaab se).	Mushkil kaam ke liye bada model, jaldi-jaldi chhote kaam ke liye chhota.
Extended thinking	Kuch models par 'soch kar' jawab dene ka mode.	Maths, logic, planning jaise complex sawalon ke liye on karein.

2. Settings screens

Settings kholne ke liye: neeche-left apne **initials / naam** par click karein, phir **Settings**. Left side mein alag-alag tabs dikhte hain. Har tab neeche samjhaya gaya hai.

2.1 General / Profile

Kahan milega: **Settings > General (Profile section)**

Option	Kya karta hai	Kab / kaise use karein
Full name / What should Claude call you	Aapka naam aur Claude आपको किस नाम से बुलाये.	Ek baar set kar dein.
Work / role	Aap kya kaam karte hain (optional).	Isse Claude ke examples aur jawab आपके field के हिसाब से आते हैं.
Instructions for Claude (personal preferences)	Account-wide instructions जो हर नए chat में apply होती हैं.	जैसे: 'Hinglish में jawab do', 'pehle short answer, phir detail', 'emojis मत use karo'.
Appearance / theme	Light, dark या system theme; chat font.	Raat में dark mode आंखों के लिए आराम दे.
Language	Interface की भाषा.	Menu अपनी पसंद की भाषा में देखने के लिए.
Notifications	Lamba task (जैसे Research) खतम होने पर alert.	Research या लंबे tasks चलाते हैं तो on rakhein.

Tip: Instructions for Claude सबसे powerful setting है. Isme apna role, pasandida format aur 'kya avoid karna hai' likhein. Project instructions aur Styles iske saath milkar kaam karte हैं.

2.2 Account

Kahan milega: **Settings > Account**

Option	Kya karta hai	Kab / kaise use karein
Email / login	Aapka login email dikhata है.	Kaunsa account use ho raha है confirm karne के लिए.
Log out of all devices	Har device से session खतम.	Phone kho गया या shared computer पर login reh गया हो.
Organization info	Team / Enterprise में आपका org aur Primary Owner.	Admin kaun है जानने के लिए.
Delete account	Account aur data permanently hatata है.	Sirf tab jab sach में band karna हो. Pehle data export kar lein. Active subscription pehle cancel karein.

2.3 Privacy

Kahan milega: **Settings > Privacy**

Option	Kya karta hai	Kab / kaise use karein
Help improve Claude (model training)	Aapke chats ko future models train karne ke liye use karne ki permission.	Apni marzi se on / off karein. Off karne par naye chats training mein use nahi honge (policy details privacy.claude.com par).
Export data	Aapke saare chats ki copy email par bhejta hai.	Backup ke liye, ya account delete karne se pehle.
Shared chats	Aapke banaye public share links ki list.	Purane share links band (unshare) karne ke liye.
Location / metadata	Kuch features ke liye approximate location use.	Local results (weather, 'near me') ke liye kaam aata hai; chahein to band karein.

Tip: Koi ek chat hi private rakhni ho to poori setting badalne ke bajaye Incognito chat use karein.

2.4 Billing

Kahan milega: **Settings > Billing**

Option	Kya karta hai	Kab / kaise use karein
Current plan	Free, Pro, Max ya Team plan aur renewal date.	Upgrade / downgrade ke liye.
Payment method	Card update karna.	Payment fail ho raha ho to.
Invoices	Purane bills download.	Office reimbursement ya GST records ke liye.
Cancel plan	Subscription band; period khatam tak access rehta hai.	iOS / Android se subscribe kiya ho to cancel App Store / Play Store se hota hai.

2.5 Usage

Kahan milega: **Settings > Usage**

Option	Kya karta hai	Kab / kaise use karein
Usage limits	Current session aur weekly limit kitna use hua, kab reset hoga.	Lambe kaam se pehle check karein kitna bacha hai.
Usage credits (paid plans)	Limit khatam hone par API rates par pay-as-you-go continue karna.	Enable karein, monthly spend limit set karein, funds add karein. Yeh subscription se alag charge hota hai.

2.6 Capabilities

Kahan milega: **Settings > Capabilities**

Option	Kya karta hai	Kab / kaise use karein
Artifacts	Claude alag panel mein documents, code, apps, diagrams bana sakta hai.	On rakhein; interactive tools aur designed pages ke liye zaroori.

Option	Kya karta hai	Kab / kaise use karein
Code execution and file creation	Claude ko sandbox computer milta hai: Excel, Word, PowerPoint, PDF banana, data analyse karna.	Files banwani hain ya CSV analyse karna hai to on. Skills ke liye bhi yeh zaroori hai.
Network / egress	Sandbox ka internet access kitna ho (package managers ya zyada).	Default theek hai; security-sensitive kaam mein restricted rakhein.
Web search	Claude internet se current info la sakta hai.	News, prices, recent events ke liye.
Other feature previews	Naye features jo aapke account par roll-out ho rahe hon.	Try karne ho to on karein; problem aaye to off.

2.7 Memory

Kahan milega: **Settings > Memory (pehle Capabilities ke andar tha)**

Option	Kya karta hai	Kab / kaise use karein
Search and reference chats	Claude purane chats search karke unka context la sakta hai (paid plans).	'Pichli baar humne X ke baare mein kya discuss kiya tha?' jaise sawal ke liye.
Generate memory from chat history	Claude chats se aapke baare mein zaroori baatein yaad rakhta hai.	Har baar apna context dobara na batana pade.
View and manage memory	Jo yaad hai use dekhna, edit ya delete karna.	Galat ya purani info hatane ke liye. Claude ko chat mein bhi bol sakte hain 'yeh yaad rakho / bhool jao'.

Tip: Memory aur past-chat search Incognito chats par apply nahi hote.

2.8 Connectors

Kahan milega: **Settings > Connectors ya Customize > Connectors ya chat mein + > Add connectors**

Option	Kya karta hai	Kab / kaise use karein
Browse connectors	Directory: Google Drive, Gmail, Calendar, Slack, Notion, Asana waghaira.	'Connect' dabayein, apne account se login karke permission dein.
Connected apps list	Jo apps jude hain, unke tools aur permissions.	Kisi tool ko off karna ho ya disconnect karna ho.
Add custom connector	Apna MCP server URL jodna.	Developers / advanced users ke liye. Sirf trusted servers jodein.

Tip: Team / Enterprise mein pehle Owner ko org level par connector enable karna padta hai; phir har member apna account connect karta hai.

2.9 Claude Code

Kahan milega: **Settings > Claude Code (plan ke hisaab se)**

Option	Kya karta hai	Kab / kaise use karein
Claude Code access	Terminal, IDE, desktop aur web mein Claude Code same subscription se.	Pro / Max mein included; limit khatam hone par API credits ka option aata hai, jo aapki manzoori ke bina use nahi hota.
Connected repos / environments	GitHub jaise sources jo web par Claude Code use kar sakta hai.	Web se coding tasks chalane ke liye.

3. Customize area

Sidebar mein **Customize** se woh cheezein manage hoti hain jo Claude ki abilities badhati hain.

Option	Kya karta hai	Kab / kaise use karein
Skills	Kisi khaas kaam ke liye instructions + files ka folder (jaise brand guidelines, report format).	Customize > Skills mein example skills on karein ya apni .zip skill upload karein. Pehle Code execution on hona chahiye. Sirf trusted skills install karein.
Connectors	Wahi connectors jo Settings mein hain, ek aur rasta.	Upar Section 2.8 dekhein.
Styles	Jawab ka tone / format. Presets + apna custom style (writing sample dekar).	Chat mein + > Use style > Create & edit styles. Apni writing jaisa style banane ke liye sample upload karein.

4. Organization settings (Team / Enterprise)

Yeh sirf Owners / Admins ko dikhte hain.

Option	Kya karta hai	Kab / kaise use karein
Members & seats	Log invite / remove, roles set karna.	Naye employee ko jodne ke liye.
Capabilities / Plugins & skills	Org-wide code execution, skills, network egress ki policy.	Security policy ke hisaab se features allow / block karne ke liye.
Connectors	Org ke liye connectors enable, member requests approve.	Members ke 'Request' par approve karein.
Usage & Analytics	Team ka usage, Claude Code / Cowork / Design analytics, spend.	Adoption aur kharcha track karne ke liye.
Billing	Seats, invoices, usage-based billing.	Finance ke liye.
Identity / SSO	Single sign-on, provisioning, domain settings.	IT team setup karti hai.

5. Quick reference

Mujhe yeh karna hai...	Yahan jaayein
Claude hamesha Hinglish mein jawab de	Settings > General > Instructions for Claude
Chote, seedhe jawab chahiye	Chat mein + > Use style > Concise
Ek sensitive sawal, save na ho	Upar Incognito icon
Mere chats AI training mein na jaayein	Settings > Privacy > Help improve Claude off
Saare chats ka backup	Settings > Privacy > Export data
Claude Excel / PDF / PPT banaye	Settings > Capabilities > Code execution and file creation on
Latest news / prices	Input bar > Search & tools > Web search on
Claude purani baatein yaad rakhe	Settings > Memory
Gmail / Drive / Calendar se kaam	Settings > Connectors (ya + > Add connectors)
Limit kitni bachi hai	Settings > Usage
Bill / invoice chahiye	Settings > Billing
Har device se logout	Settings > Account
Ek project ke liye alag instructions	Sidebar > Projects > project instructions
